TYPES OF PROJECTS

HORIZON EUROPE – Types of Projects

Horizon Europe
THE NEXT EU RESEARCH & INNOVATION
PROGRAMME (2021 – 2027)

1. Research and innovation action (RIA)

that establishes new knowledge and/or explores a new or improved technology, product, process, service or solution.

The EU funding covers up to 100% of the project costs + 25% overhead - expected to have an outcome with TRL 2 to 6.

2. Innovation action (IA)

that produces plans or designs for new or improved products, processes or services including **prototyping, testing, demonstrating, piloting**, large-scale product validation and market replication.

The EU funding covers up to 70% of the project costs* - expected to have an outcome with TRL 6 to 8. Products or technologies are almost ready to be demonstrated in the real environment.

3. Coordination and support action (CSA)

that improve cooperation between legal entities from the EU and associated countries to strengthen the European Research Area including, for example, standardisation, dissemination, awareness-raising, communication and networking activities, policy dialogues, mutual learning or studies.

The EU funding covers up to 100% of the project costs.

4. Programme co-fund action (COFUND) - European Partnerships

that provides multi-annual co-funding for European partnerships bringing together public and private partners.

The EU funding covers between 30% and 70% of the project costs.

5. Innovation and Market Deployment Actions (IMDAs):

These projects are part of the **EIC Accelerator** and support SMEs with breakthrough innovations. They offer a combination of grant and equity (capital investment) funding

6. Training and Mobility Actions (TMAs)

These projects, often associated with the Marie Skłodowska-Curie Actions (MSCA), support the mobility, training, and professional growth of individual researchers – **mobility is a strong demand**

7. European Research Council (ERC) Actions

These projects support excellent researchers and push the boundaries of existing knowledge. They are usually carried out by a single beneficiary.

provide 100% funding of eligible costs.

8. Procurements

This includes Pre-commercial Procurement Actions (PCPs) and Public Procurement of Innovative Solutions Actions (PPIs), which involve public sector procurement of innovative solutions.

The EU funding covers up to 100% of the project costs.

9. Prizes

Horizon Europe also offers prizes to recognize and reward outstanding achievements in research and innovation.
